

EPAL CP6 PALLET

1,200 x 1,000 mm

Safety and quality are of particular importance in the chemicals industry. Protecting employees, the environment and the load itself take priority. With the new quality-assured EPAL CP pallets, EPAL is closing a major gap in the chemicals industry's logistics chain. You can obtain EPAL CP pallets 1 - 9 from any one of the more than 1,600 licensed manufacturers and repairers. Supplier search under www.epal.eu.

FACTS & FIGURES

EPAL control staples

HANDLING

4-sided accessibility and high quality enable efficient handling during production, storage and transportation all the way along the supply chain. Compatible with all (conventional) standard load carriers, industrial trucks and warehouse systems. Use: Mainly bagged goods of bulk materials.

QUALITY CONTROL

EPAL's quality assurance ensures EPAL Euro pallets are of an internationally uniform and high quality. The inspection companies Bureau Veritas and CCIC complete more than 25,000 independent inspections every year on behalf of EPAL at the EPAL licensees' premises. This quality control of EPAL Euro pallets is the fundamental basis of reuse and exchange and therefore of the sustainability of EPAL Euro pallets.

ISPM 15

During production, EPAL Euro pallets are heat treated (HT) in accordance with the IPPC ISPM 15 standard. This kills off any pests and protects trees, plants and other ecosystems from infestation. The ISPM 15 treatment ensures EPAL Euro pallets can be used to transport goods without limitation, internationally and across continents.
